Available from your local Horse Feed Retailer

Designed to meet the very special nutritional requirements of the ageing horse in a convenient pellet formula.

### DUNSTAN OLD HORSE® INCLUDES:

- **Quality high-fibre and low-GI ingredients** (Soya Hulls, Lucerne Meal, Sugarbeet) to produce a **low-GI feed** ideal for older horses at increased risk of metabolic disorders.
- An **elevated protein level** from quality protein sources to assist with any reduction in protein digestion due to age.
- Elevated inclusion levels of **Natural Vitamin E** to support **immune function** in the older horse.
- **Additional Vitamin C** to support the older horse where synthesis of Vitamin C may be compromised.
- **High-fibre inclusion** to assist digestion and contribute to daily fibre requirements.
- The **live yeast**, *Saccharomyces cerevisiae*, which **aids digestion**, particularly of Phosphorus, which may be impaired in the older horse. In addition, it will assist in maintaining a more **optimal hindgut pH**, therefore contributing to overall health of the intestinal ecosystem of the older horse.
- The live yeast **CitriStim® MOS** (*Pichia guilliermondii*) to **help support the horse's natural immune system and boost the natural defences** of the horse against health challenges. It is also beneficial in the management of mycotoxins.
- A **Calcium level** and a **Calcium: Phosphorus ratio** appropriate for the unique requirements of the older horse.

### INGREDIENTS SELECTED FROM:

**Soya Hulls, Wheat By-Product, Soyabean Extract, Lucerne Meal, Barley, Extruded Rice, Soybean Oil, Sugarbeet Flakes, Molasses, Magnesium Oxide, Dicalcium Phosphate, Full Fat Soya Bean Meal, Zeolite, Limestone, Salt. Contains a comprehensive formula of Organic Amino Acid Mineral Complexes, Organic Selenium Yeast, Heat stable Vitamins and Live Yeasts.**

### Typical Analysis (Dry Matter)

• Crude Protein.....	15%
• Crude Fat.....	5.5%
• Fibre.....	24%
• Starch.....	<10%
• Salt.....	1.2%
• Energy DE.....	12MJ/Kg

### Nutrient Composition per kg of Dunstan Old Horse® (as fed)

• Crude Protein.....	130g
• Lysine.....	10.0g
• Calcium.....	9.0g
• Phosphorus.....	6.0g
• Sodium.....	4.0g
• Chloride.....	6.0g
• Magnesium.....	8.0g
• Zinc.....	130mg
• Manganese.....	120mg
• Iron.....	300mg
• Cobalt.....	0.5mg
• Copper (Organic).....	50.0mg
• Iodine.....	1.0mg
• Selenium (Organic).....	0.5mg
• Vitamin A.....	10,000iu
• Vitamin D.....	1,000iu
• Vitamin E.....	375mg
• Vitamin K.....	2mg
• Thiamine B1.....	6mg
• Riboflavin B2.....	6mg
• Pyridoxine B6.....	5mg
• Vitamin B12.....	50mcg
• Niacin.....	20mg
• Pantothenate.....	10mg
• Biotin.....	100mcg
• Folic Acid.....	1.5mg
• Choline.....	150mg
• Vitamin C.....	500mg
• Live Yeast.....	1,500mg

Heat stable Vitamins added at time of manufacture

### FEEDING RECOMMENDATIONS

(Amounts per horse per day when offered as the full feed)

- Ponies 1kg-3kg daily
- Horses 2kg-5kg daily

The above figures are guidelines only. Feed amounts will vary depending on pasture availability and body condition
