

A highly palatable Mash to assist with Hydration & Recovery.

- A highly palatable Mash to assist hydration. Ideal for horses after strenuous training, travel or convalescing.
- A low starch formulation.
- Added Natural Vitamin E to support muscle function and immunity.
- High fibre to contribute valuable fibre to the equine diet.
- No added micro-minerals so can be fed in conjunction with other pre-mixed feeds.
- Includes Melofeed®, a new age antioxidant, to support resistance to oxidative stress and recovery.
- Melofeed®, a natural source of antioxidants, assists in maintaining cartilage integrity for joint health and also benefits equine muscle health by helping to prevent muscle lesions that may occur in horses in intense training.

FEEDING RECOMMENDATIONS

Horse's Body Weight	200kg	300kg	400kg	500kg	600kg
Dunstan Recovery Mash (Dry Weight) per Day	200g	300g	400g	500g	600g

NOTE: ALWAYS ENSURE DUNSTAN RECOVERY MASH IS FULLY SOAKED PRIOR TO FEEDING.

- Feed 100grams per 100kg bodyweight.
- Higher intakes can be fed if desired as a high fibre, low starch, calorie source.
- Water must be added at the ratio of 1 part Dunstan Recovery Mash: 2 parts water.
- More or less water can be added depending on the desired consistency of the mash.
- Dunstan Recovery Mash is not a full feed as it does not include a full addition of micro-minerals.

INGREDIENTS:

Soya Hulls, Bran & Pollard, SugarBeet, Soya Bean Meal, Extruded Barley, Meadow Hay Chaff, Molasses, Vegetable Oil, Zeolite, Salt, Melofeed®, Natural Vitamin E, Di-Calcium Phosphate, Apple Flavour.
