## An Oat-Free, Textured Feed formulated specifically for Horses Prone to 'Tying Up'

- **Dunstan Race-Ease** is a high-energy Racing formula utilising a combination of energy sources, avoiding complete reliance on high starch ingredients as a fuel source. The inclusion of **Super Fibres (Sugarbeet and Soya Hulls)** provide calories from **low starch, quality fibre** sources, not only to assist in managing 'tying-up' but also for digestive health. **Steam flaked Lupins** contribute a low starch, high protein, high fat, energy-dense ingredient ideal for the working horse.
- **Dunstan Race-Ease** utilises extrusion technology in an **Oat free diet**, with the cereal portion provided as extruded **Barley**. The inclusion of **Barley** in its extrusion form supplies a readily available energy source, but in a highly digestible form which is less likely to cause digestive upsets as a result of excessive fermentation in the caecum and hindgut.
- **Vegetable Oil** provides an additional calorie source of key importance in the equine athlete pre-disposed to 'tying-up'.
- Minerals are provided as **Glycinate Organic Trace Minerals** resulting in **improved bio-availability**. This ensures maximum feed and nutrient utilisation, also **aiding development of the natural immune system**.
- **Selenium** and **elevated levels of Vitamin E** are included in this formula, with **Selenium** provided in the more available form of **Selenium Yeast** and **Vitamin E** as **Natural Vitamin E**.
- **Additional electrolytes** as Potassium Chloride and Magnesium Oxide are included to **aid muscle integrity and assist in reducing anxiety** from Magnesium deficiency.
- **Chromium Yeast** is included as an aid to overall energy utilisation and as an agent to **help reduce lactic acid accumulation**, a factor often associated with tying up.

### FEEDING RECOMMENDATIONS

Amounts per horse per day when offered as the full feed

<b>Light Work</b>	<b>2.5kg - 3kg</b>
<b>Moderate Work</b>	<b>3.0kg - 4kg</b>
<b>Hard Work</b>	<b>4.0kg - 5kg</b>

The above recommended feeding rates for **Dunstan Race-Ease** are based on a 500kg horse and are guidelines only. Daily feed amounts will vary depending on pasture availability, body condition and individual metabolic rate.

### FEEDING NOTES

- Ensure adequate fibre intakes by providing 1% - 1.5% per day of the horse's body weight as **Dunstan Betabeet/Sugarbeet, Fiber Fresh products**, chaff, hay or pasture (on a Dry Matter basis).
- For horses pre-disposed to 'tying-up' if additional calories are required in the ration and the recommended intakes of **Dunstan Race-Ease** are being fed, utilise **Dunstan Betabeet** as an ideal calorie supplement. **Dunstan Betabeet** is low in starch and sugar and will contribute quality fibre to the ration.
- It is advisable to split the daily hardfeed into at least two feeds, preferably 3-4, but feed no more than 2.0 kg of **Dunstan Race-Ease** per meal.
- Always introduce a new feed gradually over a period of 7 - 10 days.
- Always ensure the Horse has access to clean drinking water.
- High Copper levels in **Dunstan Race-Ease** make it unsuitable for feeding to sheep.

### INGREDIENTS:

**Bran & Pollard, Soya Hulls, Soyabean Oil, Molasses, Steam Flaked Lupins, Extruded Barley, Melofeed®, Fibre Pellet, Crushed Peas, Sugarbeet, Sunflower Seeds, Vitamins and Minerals, Dicalcium Phosphate, Limestone, Lysine, Magnesium Oxide, Natural Vitamin E, Potassium Chloride, Chromium Yeast, Live Yeast Culture and Selenium Yeast.**

### Typical Analysis (Dry Matter Basis)

Crude Protein.....	13.0 %
Crude Fibre.....	11.0 %
Crude Fat.....	12.0 %
Energy DE.....	15.5 MJ/Kg

### Nutrient Composition – typical analysis per kilo of Dunstan Race Ease (as Fed)

Crude Protein.....	115g
Lysine.....	8g
Calcium.....	12g
Phosphorus.....	6g
Chloride.....	11g
Sodium.....	0.45%
Potassium.....	10g
Magnesium.....	4g
Iron.....	300mg
Zinc (Organic).....	200mg
Manganese.....	110mg
Copper (Organic).....	70mg
Cobalt.....	1ppm
Iodine.....	1.65mg
Selenium.....	75mg
Vitamin A.....	12,000iu
Vitamin D.....	1200iu
Vitamin E.....	550iu
Vitamin K.....	2.0mg
Thiamine B1.....	6.0mg
Riboflavin B2.....	6.0mg
Pyridoxine B6.....	5.0mg
Vitamin B12.....	50ug
Niacin.....	20mg
Pantothenate.....	10mg
